

Violet White

Total Body Care

Waxing Treatments

Violet White Total Body Care practices a strict hygienic policy utilizing disposable medical grade gloves, table paper for all our waxing services, in accordance with health regulations, providing a truly quality waxing facility.

All waxing spatulas are disposable or sanitized and NEVER re-dipped.

Ask your current waxer if they re-dip!

- All of our waxing treatments start with consultation, preparatory antibacterial skin cleansing, a protective product layer prior to waxing application.
- All waxing is finished with cooling antibacterial solution and a calming antibacterial broad spectrum sunblock that conceals redness is additionally applied after facial waxing.
- Another often over looked factor by many clients, TOWELS! We actually make use of fresh, commercially cleaned sheets and towels.

Contraindications

Diabetic/ Active Rosacea /Retin-A / Renova /Azelex /Differin /Tazorac / Accutane / Active Acne/ Lupus or other Auto Immune Disorder / Chemotherapy / Cancer/ Chemical Peel / Microdermabrasion / Eczema / Psoriasis / Sunburn/ Blood Thinners / Prednisone or Steroid / Prone to Redness or Sensitivity

Before and After Care: Cactus Exfoliating Cloth \$8

Finipil Antibacterial / Antimicrobial Cooling Lotion \$15

This certified formula destroys 99.99% of (Bacteria), (Fungi) *Finipil* slows the development of new hair cells when used in conjunction with Nufree *Finipil* cools the temperature of the empty follicle, freezing away swelling....*Finipil* protects against ingrown hairs

Also Available: **Calendula Gold Hard Wax with Tea Tree Oil** For use on even the most sensitive areas, and all types of skin. Note: This is a NO STRIP WAX.

Honey Wax with VITAMIN E creates an all-purpose depilatory wax that's good for skin and forms a natural buffer between wax and skin

Waxing temporarily removes hair from the root. New hair will not regrow for three to eight weeks. Waxing is performed by spreading product smoothly over the skin, pressing cloth strip and removing very quickly in opposite direction of hair growth. When new hair grows back it is thin and fine...

Nufree Nudesse Professional Hair Removal System

Nufree is the gold standard in hair removal and is carried by thousands of professional salons throughout the world. It was developed over 25 years ago to help plastic surgeons remove hair from a patient before surgery.

Nufree completely uproots the entire bulb and hair shaft. It never dries and never sticks to your skin, so there is none of the pain, stretching or tearing of the skin that some waxes can cause. Nufree used in combination with the antimicrobial *Finipil*, you can be free of unwanted hair for weeks. After your second Nufree treatment you'll never have ugly stubs or nubs again.

THE ONLY ANTIMICROBIAL, ANHYDROUS, NON WAX HAIR REMOVAL SYSTEM IN THE WORLD

NEVER STICKS TO THE SKIN FOR LESS PAIN, REDNESS AND SWELLING ASSOCIATED WITH TYPICAL WAXING METHODS UPROOTS THE ENTIRE BULB AND HAIR SHAFT

Nufree Nudesse Professional Hair Removal system, is the only safe, soy based antimicrobial liquid hair removal system that makes your skin silky and smooth to the touch. It is wax free, sugar free, irritation free and pain free!
